SUMMARY

Full-Stack Developer passionate about building scalable web applications with **React.js, Next.js, TypeScript, Node.js, Express.js, PostgreSQL, Prisma ORM, and MongoDB**. Demonstrated technical leadership by mentoring **15 students** as a Stanford Code in Place Section Leader selected from **2,000+ applicants**, while contributing to open source and solving **100+ LeetCode problems**. Seeking to leverage strong engineering fundamentals and hands-on development experience to build impactful software products.

EXPERIENCE

Stanford University — Code in Place 2026

Section Leader

2026

Remote

- Selected from a pool of **2,000 applicants** as a Section Leader for Stanford's Code in Place 2026.
- Led **15 international students** across **8 time zones** during a 6-week program.
- Taught Python fundamentals, problem decomposition, and debugging through weekly live sessions and 1:1 mentorship.
- Supported student progress through assignments, code reviews, and final project completion.

Dev Weekends Fellowship 2025

MERN Stack and DSA Fellow — Bronze Certificate

2025

Remote

- Selected for Level 0 of the Dev Weekends Fellowship, focusing on problem solving, real-world engineering, and weekly structured sessions over 6 to 7 weeks.
- Built **3 full-stack projects** and **1 React Native** expense tracker app.
- Solved **100+ LeetCode questions**, strengthening DSA, problem solving, and implementation skills.
- Gained hands-on experience with product building, debugging, and project delivery.

GirlScript Summer of Code (GSSoC '25)

Selected Open-Source Contributor

2026

Remote

- Selected as a GSSoC contributor and actively working on open-source contributions.
- Contributed to issue analysis, bug fixing, feature development, and pull request submissions.
- Collaborated with maintainers through GitHub discussions, reviews, and code updates.
- Strengthened skills in Git, GitHub, open-source workflows, and collaborative development.

PROJECTS

Lumen — Full-Stack E-Commerce Platform

[Link](#)

- Built a full-stack e-commerce platform for browsing products, managing carts, and processing orders using **Next.js, TypeScript, PostgreSQL, and Prisma ORM**.
- Implemented authentication, shopping cart functionality, product management, and order workflows to create a complete shopping experience.
- Designed responsive UI components with **Tailwind CSS** and optimized performance for smoother user interactions.

School Hub — Full-Stack School Management System

[Link](#)

- Developed an LMS-style school management platform for admins, teachers, students, and parents with role-based access and dashboards.
- Implemented CRUD operations, analytics, and multi-role authentication using **Next.js 15, TypeScript, PostgreSQL, Prisma ORM, and Clerk**.
- Integrated **Docker, Recharts, and Cloudinary** to support deployment, data visualization, and media handling.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js

Databases: PostgreSQL, MongoDB, Prisma ORM

Tools: Git, GitHub, Docker, VS Code

ACHIEVEMENTS & CERTIFICATIONS

- Section Leader — Code in Place, Stanford University (2026): Selected from **2,000 global applicants** as a Section Leader.
- CS50 Puzzle Day, Harvard University — Two-Time Winner: Solved **9/9 puzzles** for two consecutive years, demonstrating strong logic and core CS fundamentals.
- Meta Hacker Cup 2025 — Round 1 Qualifier: Qualified for Round 1 of Meta's global competitive programming contest.
- Lablab.ai International Hackathons — **5+ Participations**: Collaborated with global teams to build AI-powered solutions under time constraints.

EDUCATION

University of Agriculture, Faisalabad (UAF)
Bachelor of Science in Computer Science

2023 – 2027
Faisalabad, Pakistan

VOLUNTEER EXPERIENCE

iCodeGuru
Moderator and Trainer

2025 – Present
Remote, Pakistan

- iCodeGuru trains Pakistani students for international tech careers and fully funded US scholarship opportunities.
- Taught web development from scratch to **20+ non-technical students**.
- Delivered 3+ beginner-friendly lessons on HTML, CSS, JavaScript, and basic projects.
- Trained students in DSA, Python, and competitive programming for technical interviews and coding contests.
- Moderated weekly community sessions and supported student learning discussions across the iCodeGuru Slack workspace.
