

Alisha Fatima

Software Engineer

+92 367 350 882 | alishafatima6768@gmail.com | [LinkedIn](#) | [GitHub](#) | Faisalabad, Punjab, Pakistan

SUMMARY

Software Engineering Student with experience building full-stack web applications using React, Next.js, TypeScript, Node.js, Express, PostgreSQL, and MongoDB. Skilled in frontend development, backend APIs, database design, and cloud-ready application deployment. Passionate about software engineering, problem solving, and scalable web applications.

PROJECTS

Lumen — Full-Stack E-Commerce Platform

[GitHub](#)

- Developed a full-stack e-commerce platform using Next.js, TypeScript, PostgreSQL, and Prisma ORM.
- Implemented authentication, shopping cart functionality, product management, and order processing workflows.
- Designed responsive UI components using Tailwind CSS and optimized application performance.

School Hub — Full-Stack School Management System

[GitHub](#)

- LMS-style platform with multi-role authentication (admin, teacher, student, parent), dashboards, CRUD, and analytics.
- Tech: Next.js 15, TypeScript, Tailwind CSS, PostgreSQL, Prisma ORM, Clerk, Docker, Recharts, Cloudinary.

Real Estate Web App — Full-Stack Property Platform

[GitHub](#)

- Property listing platform with search and filters, user authentication, and property management for buyers and sellers.
- Tech: React, Tailwind CSS, Node.js, Express.js, MongoDB, Redux, JWT Authentication.

EXPERIENCE

Stanford University — Code in Place 2026

2026

Section Leader

Remote

- Selected from a pool of 2,000 applicants as a Section Leader for Stanford's Code in Place 2026.
- Led 15 international students across 8 time zones during a 6-week program.
- Taught Python fundamentals, problem decomposition, and debugging through weekly live sessions and 1:1 mentorship.
- Supported student progress through assignments, code reviews, and final project completion.

Dev Weekends Fellowship 2025

2025

MERN Stack and DSA Fellow — Bronze Certificate

Remote

- Selected for Level 0 of the Dev Weekends Fellowship, focusing on problem solving, real-world engineering, and weekly structured sessions over 6 to 7 weeks.
- Built 3 full-stack projects and 1 React Native expense tracker app.
- Solved 100+ LeetCode questions, strengthening DSA, problem solving, and implementation skills.
- Gained hands-on experience with product building, debugging, and project delivery.

GirlScript Summer of Code (GSSoC '25)

2026

Selected Open-Source Contributor

Remote

- Selected as a GSSoC contributor and actively working on open-source contributions.
- Contributed to issue analysis, bug fixing, feature development, and pull request submissions.
- Collaborated with maintainers through GitHub discussions, reviews, and code updates.
- Strengthened skills in Git, GitHub, open-source workflows, and collaborative development.

ACHIEVEMENTS & CERTIFICATIONS

Section Leader — Code in Place, Stanford University 2026

- Selected from 2,000 global applicants as a Section Leader for Stanford's Code in Place 2026.

CS50 Puzzle Day, Harvard University — Two-Time Winner

- Solved all 9/9 puzzles for two consecutive years, demonstrating strong logic and core CS fundamentals.

Meta Hacker Cup 2025 — Round 1 Qualifier

- Qualified for Round 1 of Meta's global competitive programming contest, showcasing algorithmic problem-solving under pressure.

Lablab.ai International Hackathons — 5+ Participations

- Participated in 5+ international hackathons on Lablab.ai, collaborating with global teams across diverse time zones to build AI-powered solutions under time constraints.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, FastAPI

Databases: PostgreSQL, MongoDB, Prisma ORM

Tools: Git, GitHub, Docker, VS Code

Concepts: OOP, REST APIs, DSA, Agile Development

EDUCATION

University of Agriculture, Faisalabad (UAF)

Bachelor of Science in Computer Science

2023 – 2027

Faisalabad, Pakistan

VOLUNTEER EXPERIENCE

iCodeGuru

Moderator and Trainer

2025 – Present

Remote, Pakistan

- iCodeGuru trains Pakistani students for international tech careers and fully funded US scholarship opportunities.
- Taught web development from scratch to 20+ non-technical students.
- Delivered 3+ beginner-friendly lessons on HTML, CSS, JavaScript, and basic projects.
- Trained students in DSA, Python, and competitive programming for technical interviews and coding contests.
- Moderated weekly community sessions and supported student learning discussions across the iCodeGuru Slack workspace.
